Agricultural Systems 35 (1991) 481–482

CONTENTS OF VOLUME 35

Number 1

GINQUAL: A Cotton Processing Quality Model 1
G. L. BARKER, R. V. BAKER & J.W. LAIRD (USA)

Structure and Behavior of a Deterministic Model of Reproductive Performance in Beef Cattle 21
S. C. DENHAM, R. E. LARSEN, J. BOUCHER & E. L. ADAMS (USA)

Modeling Competition for Light between Soybean and Broadleaf Weeds . . 37
L. J. WILES & G. G. WILKERSON (USA)

Adapting the SPUR Animal Submodel for use on Fescue Pastures by Including Rumen and Heat Stress Logic 53
D. H. SEMAN, M. H. FRERE, J. A. STUEDEMANN & S. R. WILKINSON (USA)

Environmental Conservation and Sheep Farming in the United Kingdom . . 69
G. O. HUGHES (UK)

A Mathematical Model for the Impact of Energy Input in Land Preparation on Yield of Rice 81
ABHIJIT BHATTACHARYA (India)

Fertilizer and Organic Manure use Under Uncertainty: Policy Comparisons for Irrigated and Dryland Farming Systems in South India 89
SURESH CHANDRA BABU (USA), S. R. SUBRAMANIAN (India) & B. RAJASEKARAN (USA)

Book Reviews 103

Number 2

FLORES: A Model on the Keeping Quality of Cut Flowers 111
WOUTER G. VAN DOORN & L. M. M. TIJSKENS (The Netherlands)

Modeling the Impacts of Two Agricultural Policies on the US Livestock Sector: A Systems Approach 129
JON A. BRANDT, ROBERT E. YOUNG II & ABNER W. WOMACK (USA)

Economic Optimisation of *Heliothis* Thresholds on Cotton Using a Pest Management Model 157
P. G. COX, S. G. MARSDEN, K. D. BROOK, H. TALPAZ & A. B. HEARN (Australia)

Improvement of Yielding Ability in Japonica Rice Cultivars and its Impact on Regional Yield Increase in Kinki District, Japan 173
TOSHIHIRO HASEGAWA, TAKESHI HORIE (Japan) & BRIAN S. YANDELL (USA)

Agricultural Systems (35) (1991)—© 1991 Elsevier Science Publishers Ltd, England. Printed in Great Britain

A Simulation Model to Assess Primary Production and Use of *Bouteloua gracilis* Grasslands. Part I—Model Structure and Validation 189
QUITO LOPEZ-TIRADO & J. G. W. JONES (UK)

A Simulation Model to Assess Primary Production and Use of *Bouteloua gracilis* Grasslands. Part II—Experimentation 209
QUITO LOPEZ-TIRADO & J. G. W. JONES (UK)

Book Reviews 229

Number 3

'Systems Research' or 'Research with a Systems Perspective' in Africa Some Organizational and Technical Issues 235
W. A. STOOP (The Netherlands) & R. J. BINGEN (USA)

An Approach to the Development of Expanded Postgraduate Training for Agricultural Scientists within the Southern African Development Coordination Conference Region 251
R. B. JONES & M. J. BLACKIE (Malawi)

Validation of Agricultural Expert Systems 265
S. R. HARRISON (Australia)

The Development of a Prototype Computerised Management Information System for a Mixed Enterprise Farm 287
J. F. FAVIER (UK) & V. A. DODD (Republic of Ireland)

Estimations of the Increase in Milk Production due to the Introduction of Maize Silage to a Dairy Farm in a Subtropical Environment: A Time Series Approach 313
D. V. KERR, R. T. COWAN & J. CHASELING (Australia)

Crop Simulation Modelling Using a Transputer-based Parallel Computer . . 321
P. K. THORNTON, J. A. BLAIR-FISH & S. M. D. WILSON (UK)

The Impact of Foodcrop Production on Sustained Livestock Production in Semi-arid Regions of Kenya 339
A. W. MUKHEBI (Kenya), H. C. KNIPSCHEER & G. SULLIVAN (USA)

Book Reviews 353

Number 4

Small Farmer Development: Experiences of Commonwealth Developing Countries 361
M. HASSANULLAH (Bangladesh)

Comparative Analysis of the Village Ecosystem Function of Different Tribes Living in the Same Area in Arunachal Pradesh in North-eastern India 377
R. K. MAIKHURI & P. S. RAMAKRISHNAN (India)

Evaluation of Four Simulation Models of Cattle Growth and Body Composition: Part I—Comparison and Characterization of the Models 401
R. N. ARNOLD & G. L. BENNETT (USA)

An Analysis of the Marginal Value of Cropland and Nitrogen Fertilizer Use Under Alternative Farm Programs 433
WEN-YUAN HUANG & NOEL D. URI (USA)

ISFARM: An Integrated System for Farm Management: Part I—Methodology. 455
I. AMIR (Israel), J. PUECH & J. GRANIER (France)

Book Reviews 471
